DETAILED ACTION

This Office action is in response to applicant's amendment received on 30 June 2006.

Allowable Subject Matter

1. Claims 1-18, 20-21, 37 are allowed.
2. The following is an examiner's statement of reasons for allowance:
 - Claims 1-18, 37 are allowed because the prior art of record does not teach or suggest, in combination with the other claim limitations, a method for manufacturing a device that includes forming a gap in a semiconductor substrate, depositing a spacer material over portions of the gap, and growing a strain layer in at least a portion of the gap; and
 - Claims 20-21 are allowed because the prior art of record does not teach or suggest, in combination with the other claim limitations, a method for manufacturing a device that includes forming a gap between a semiconductor substrate and a silicon layer by removing at least a portion of the silicon layer and an underlying first strain layer and growing a second strain layer in the gap,

wherein the second strain layer is substantially directly under a channel of an n-type device (claim 20), or wherein the second strain layer is substantially directly under at least one of a source region or drain region of a p-type device (claim 21).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
